i Professional Summary

Over 20 years of experience in academic research, policy evaluation, and causal inference at Sciences Po. Expert in econometric, quasi-experimental methods, and data mining applied to public policy – Regulation of Wine markets (my PhD topic), Network Industries, R&D. Ad hoc research into the Tourism and VGs sectors. Published in *Applied Economics*, *The Energy Journal*, *Research Policy* and a forthcoming textbook on *Statistical Evaluation Methods for Public Policies* (Ellipses, 2027). Proven track record of advising the French Parliament, Budget Office, and national funding agencies. Fluent in French and English and understanding of Spanish; programming in Stata, R, Python

🧰 Professional Experience

Senior Research Fellow

OFCE - Sciences Po, Nice/Paris, France (2005 - Present)

- Lead ex-post reviews of French R&D tax credit (CIR) - results adopted by Cour des comptes, the Ministry of Higher Education and Research, Hearings at Parliament
- Designed a field experiment on smart metering (TICELEC project, €200k)
- Participated to Journées d'Etudes du Tourisme de Nice, 5th ed.; studied the Impact of COVID-19 Pandemic on the Hospitality Industry in the Alpes-Maritimes
- Publications on innovation in environmental economics and R&D support policy in Energy Policy, Economics Bulletin, Energy Journal ... and several grey journals; reviewer for 20+ journals: Economic Journal, Energy Economics, ...
- Taught graduate-level econometrics, program evaluation, and Stata programming at Université Côte d'Azur and Sciences Po Menton; supervised 25+ master theses

Postdoctoral Research Associate

City University London, UK (2002-2004), University Paris Saclay, France (2005)

- Conducted econometric analysis of UK electricity market liberalisation - retail pricing, market power, and fuel poverty; findings published in *Applied Economics*
- Developed a model for estimating switching-cost between electricity retailers

Research Associate

University of East Anglia, Norwich, UK (2001-2002)

- Collaborated on an ESRC project on social obligations and economic regulation in energy markets. Built panel-data models of consumer vulnerability and utility pricing; findings published in *The Energy Journal*

Teaching & Research Assistant (ATER)

France: U. Côte-d'Azur (2016-2025), Sciences Po Menton (2010-2011, 2023), U. Rennes 1 (2006-2010), ESC Reims (2004-2006), ENSAE (2003-2004), U. Perpignan (1998-2001). **Great Britain:** City U. London (2002). **Ukraine:** U. Simferopol (1999)

- Lectures in policy evaluation methods, microeconomics/game theory, econometrics, statistics and statistical packages

- Co-supervised 25+ master theses in economics and other fields

Key Skills

- Causal inference & Program evaluation (potential outcome framework, DID, RDD, Synthetic control, Matching estimators, Panel data)
- Econometric Modelling (time series, microeconometrics, total factor productivity estimation)
- Statistical Programming: Stata (advanced), R, Python (scikit-learn, pandas)
- Data Management: Eurostat, R&D Scoreboard, FARE, DADS, Family survey data
- Policy Analysis & Consulting: written expert reports for French Parliament, Budget Office, Ministry of Higher Education and Research
- Research communication: peer-review publications, policy briefs, press interviews and papers (AFP, Reuters, Les Echos, Capital, Le Monde, Alternatives économiques)

Education

- PhD thesis on Common Agricultural Policy effects in French wine markets (defended 2003, with honours), University of Perpignan via Domitia
- Postgraduate Degree in Economic Calculus (with honours) – University of Montpellier
- MA in Econometrics (with honours) – University of Montpellier
- BA in Econometrics – University of Social Sciences, Toulouse
- Postdoctoral training – City University London (energy economics, statistical methods)

Selected Publications & Reports

- *Méthodes statistiques d'évaluation des politiques publiques*, Ellipses (collection Références sciences), 2027
- Compétitivité européenne : un état des lieux, *Revue de l'OFCE*, 2026
- *Impact de la nature du financement de la recherche sur ses résultats*, MESRE, 2022
- L'impact du CIR sur l'emploi dans la R&D du secteur privé : une revue critique, *Revue de l'OFCE*, 2021
- Real time pricing when some consumers resist in saving electricity, *Energy Policy*, 2013
- Charges, costs and market power: the deregulated UK electricity retail market, *The Energy Journal*, 2004

Languages

- French (native)
- English (TOEFL CBT 200, fluent)
- Spanish (high-school level, reading proficiency)
